

Instructions (Hover over fields for further guidance on form)

Complete this form to notify BSI of any plan for substantial changes to the quality management system, the device(s) and/or device-range and to request Regulatory Letters, Summary Technical Reports, or Renewals. If necessary attach additional information making reference to the attachments in this form; attachments are preferable where diagrams, formatting or tables need to be included. Submit to BSI at bsirsnotifications@bsigroup.com (this address is for the initial submission **only**, no further communication should use this email).

When requesting Regulatory Letters or Summary Technical Reports, or Renewals only, please complete the relevant portion of Section A, select the service required from Section C, and complete and sign Section D.

When informing BSI of a planned change, BSI will assess in Section B and determine what (if any) action is required. If a work authorisation is required this will include estimated durations in Section C. The Manufacturer must select the Dedicated or Standard rates as required in Section C and only then complete section D and return to BSI to authorise the work to proceed. **Note: As you complete the form additional fields will appear based on your selections, therefore it is necessary to fill in the form from beginning to end.**

Title of Change

Request(s) (tick all that apply)	Notification of Change	Manufacturer Single Registration Number
	Regulatory Letter(s)	Check if manufacturer is based outside the EU. Authorised
	Summary Technical Report(s)	Representative Name
	Renewal(s)	
Client Reference (if any)		Auth. Rep. Single Registration Number
List any attachment(s) to Change Notification		Check if manufacturer is based outside the UK UKRP Name & Address

Section A - Types of Change

To be completed by Manufacturer (tick all that apply and detail the changes on page 3)

Change of name / location / address / company registration number of legal manufacturer, etc.

Change in number of employees (detail in the description section the change to employee numbers)

Change to QMS activities performed (e.g. addition of design and development, service, installation etc.)

Change affects manufacturing of the products (e.g. new technology/process, clean room changes)

Change affecting design of the device (e.g. new functionality, new intended use, device materials ...)

Change to a QMS critical process (e.g. document control, vigilance, design...)

Change to subcontractors/suppliers

Change to sterilisation (e.g. changes of provider or change of process, release criteria, method etc.)

Change is Safety Related

Addition of new device(s) Basic UDIs

Removal of devices(s) Basic UDIs

Device Name	Classification	Certificate	Requested Action(s)
-------------	----------------	-------------	---------------------

Change impacting Devices listed on Quality System Certificate(s) including classification(s)

Change impacting Devices listed on Product Certificate(s) including classification(s)

For changes that impact multiple product certificate types it is acceptable to combine submissions on one form for Medical Devices listed on MDR/MDD/AIMDD/UKCA product certs **or** for In Vitro Diagnostic Medical Devices listed on IVDR/IVDD/UKCA product certs **or** changes that impact MDR Article 117 Notified Body Opinion.

However, if the changes impact devices listed on any combination of these three types (MDs, IVDs, Art. 117 NBO) the change notifications should be submitted on separate forms for clarity. (Please note this combination in the description of change section)

Select only one

Change to Medical devices listed on MDR/MDD/AIMDD/UKCA product certs

Change to In Vitro Medical Devices listed on IVDR/IVDD/UKCA product certs

Change to MDR Article 117 Notified Body Opinion

Request for Certificate Cancellation or to Decline Certificate Renewal, Immediate At time of renewal

Other areas (please specify):

Are there any ongoing assessments that are impacted by this change? Yes

Please provide details

Section A - Description of Change

Description of Change(s) Provide a detailed description, make comparison of current versus planned.

If evidence/information provided to support this change request has been previously submitted to and assessed by BSI please provide relevant details of the BSI review. Should tables, diagrams or formatting be more effective when describing the change, it is recommended to use separate document(s), which should be referenced below and on page 1 in the Attachments section.

Substantial	Non-Substantial
Justification (in all cases)	

Current Scope (of QMS Certificate)

Non Significant	Significant
Justification (under MDR Art. 120.3/IVDR Art. 110.3)	

Planned Scope (of QMS Certificate)

Reason for Change(s)

Manufacturer Evaluation of Change Evaluate for all and justify if no impact.

The Manufacturer should evaluate how the change impacts each of the sections below. Manufacturer should consider if the change(s) have resulted in an update, evaluation/re-evaluation of any the following: risk analysis, Essential Requirements or General Safety and Performance Requirements, Clinical/Performance Evaluation, PMS/PMCF/PMPF plan, any product verification/validation, and any information submitted to a Competent Authority. If use of attachments would facilitate please reference in the appropriate section & list attachment(s) on page 1.

Section B – BSI Assessment (for BSI use only)

To be completed by BSI Change Notification Reviewer Only

BSI Decision

Refused- (See above for rationale)

Quotation Required to allow further BSI Assessment.

Work Authorisation Required to allow further BSI Assessment. (If selected See Section C for estimate of work, manufacturer to select rate as necessary, complete section D and return to BSI to authorise work.)

BSI review of change notification complete - no further authorization is required at this time.

**BSI Change Notification Reviewer
Name/Date**

BSI Reference

Section C – Change Notification Fees and Rates

Required activities to be identified by BSI Change Reviewer & [Manufacturer](#) to select rates and approve work authorisation only after identified by BSI assessment.

Administration Fees

	GBP £	EUR €	USD \$	CAD \$	CNY ¥
Directive QMS Certificate changes/re-issue fee	905	983	1,432	1,618	8,295
Regulation QMS Certificate changes/re-issue fee	905	983	1,432	1,618	8,295
UKCA QMS Certificate changes/re-issue fee	905	983	1,432	1,618	8,295
ISO 13485 (RvA /UKAS) Certificate changes/re-issue fee	690	820	1,155	1,305	6,320
MDSAP Certificate changes/re-issue fee	690	820	1,155	1,305	6,320
Article 16 Certificate changes/re-issue fee	905	983	1,432	1,618	8,295

Directive/Regulation/UKCA certificate changes /re-issue fee is based on a minimum 2 hours of work. ISO 13485 certificate changes /re-issue fee is a fixed minimum charge. Additional fees will be charged for work taken over 2 hours (£452/€491/\$716/CAD\$809/¥4,147 per hour).

Regulation/UKCA Quality Assurance Certificate changes will be charged a Certification Panel review fee as listed in table below:

	GBP £	EUR €	USD \$	CAD \$	CNY ¥
Regulation/UKCA QMS Certificate (fixed Panel fee)	452	491	716	809	4,147

MDD/AIMDD/IVDD Medical Device Reviews, Standalone UKCA, and MDD/AIMDD/IVDD combined with UKCA reviews

This is a summary of a technical documentation review for the purpose of supporting client registration in other jurisdictions.

Request Details: (Additional information e.g. content, products, model numbers, classification, audits)

Section C - Certificate Renewal Fees and Rates

List all certificates to be Renewed

Certificate Number

Date of Issue

Expiry Date

Note: If requesting a cancellation of a certificate or declining to renew a certificate select change notification on page 1. and complete the change notification section above detailing the request to cancel or the request to decline renewal.

ISO 13485 Certificate Renewal

Certificates for ISO 13485 are issued for up to 3 years and require a renewal process to be completed prior to the expiration date of the certificate.

Manufacturer Select Currency & Renewal type(s) and complete Section D

	GBP £	EUR €	USD \$	CAD \$	CNY ¥
ISO 13485 Renewal - certificate holder (per certificate)	870	1,035	1,445	1,635	7,390
ISO 13485 Renewal - additional location (per additional site)	520	620	865	980	1,870

MDR/IVDR and UKCA Certificate Renewal

CE Marking and UKCA certificates are issued for 5 years or less and require a renewal process to be completed before they expire. Manufacturers are responsible for requesting renewal and will be required to provide supporting documentation as requested at the time of renewal.

For each MDR and IVDR Product certificate to be renewed, please follow the instructions in the renewal notification email to complete the attached renewal form including the requested information.

MDR /IVDR Certificate Renewal and UKCA if in combination with MDR

Manufacturer Select Currency & Renewal type(s) and complete Section D

	GBP £ per day	EUR € per day	USD \$ per day	CAD \$ per day	CNY ¥ per day
Product Specific or Quality Assurance certificate – Standard	3,619	3,930	5,726	6,472	33,179
Product Specific or Quality Assurance certificate – Dedicated	9,075	9,850	14,460	16,355	86,335

Regulation Product-Specific Certificate renewal will be charged a Certification Panel review fee equal to 10% of the final technical documentation review cost (£4,589/€4,355/\$6,431/CAD\$7,234/¥41,625 maximum).

Regulation Quality Assurance Certificate renewals will be charged a Certification Panel review fee as listed in table below:

	GBP £	EUR €	USD \$	CAD \$	CNY ¥
Regulation QMS Certificate (fixed Panel fee)	452	491	716	809	4,147

For MDR, animal/human tissue and medicinal/biological substance renewal fees are charged in addition to the renewal fees above.

Standalone UKCA Certificate Renewal

Manufacturer Select Currency & Renewal type(s) and complete Section D		GBP £ per day	EUR € per day	USD \$ per day	CAD \$ per day	CNY ¥ per day
	Quality Assurance certificate – Standard	3,619	3,930	5,726	6,472	33,179
	Quality Assurance certificate – Dedicated	9,075	9,850	14,460	16,355	86,335
	Design Exam / Type Exam certificate for MDD/AIMDD/IVDD Devices – Standard	3,619	3,930	5,726	6,472	33,179
	Design Exam / Type Exam certificate for MDD/AIMDD/IVDD Devices – Dedicated	9,075	9,850	14,460	16,355	86,335

For UKCA, animal tissue and medicinal renewal fees are charged in addition to the certificate renewal fees above.

UKCA Product-Specific Certificate renewal will be charged a Certification Panel review fee equal to 10% of the final technical documentation review cost (£4,589/€4,355/\$6,431/CAD\$7,234/¥41,625 maximum).

UKCA Quality Assurance Certificate renewals will be charged a Certification Panel review fee as listed in table below:

	GBP £	EUR €	USD \$	CAD \$	CNY ¥

	Article 16(4) Certificate - fee per certificate	1,131	1,228	1,789	2,023	10,368

Other Medical Device Review Fees

--	--

Notes:

- Acceptance by BSI of a signed work order and a complete set of technical documentation does not constitute a guarantee that work can be completed before the end of the transition period. Review and approval of certificate changes will be dependent on the submission of largely satisfactory documentation and timely responses to questions raised by BSI.
- The validity of MDD and AIMDD certificates after the Date of Application is conditional to continuing compliance with the provisions described in Article 120 of the MDR as amended.
- The validity of IVDD certificates after the Date of Application is conditional to continuing compliance with the provisions described in Article 110 of the IVDR as amended.
- In the absence of CE certificates under MDD/AIMDD with validity beyond the transition period, you will no longer be able to place affected devices on the EU market until they have been certified under the MDR.
- In the absence of CE certificates under IVDD with validity beyond the transition period, you will no longer be able to place affected devices on the EU market until they have been certified under the IVDR.
- The fees quoted are for illustration purposes only at current rates and are subject to annual review and adjustment. Invoicing will be carried out at rates prevailing at the time of the audits/assessments.

Section D – Work Authorisation

This section is to be completed by Manufacturer to authorise BSI to proceed with the work identified in the form above. For change notifications this should only be completed after BSI assessment in section B has been concluded. The Manufacturer can complete section D prior to sending to BSI when requesting Renewal(s), Regulatory letter(s) or STR (s). When informing BSI of a change, the BSI assessment will be identified in Section B and this will determine what if any action is required. If a work authorisation is identified as required, Section C will be filled out indicating what reviews are required and include estimates of durations. The Manufacturer must then select the dedicated or standard rates as necessary in section C and then complete section D to authorise the identified work to proceed.
